

In this business, success starts with a strong connection.

The telecommunications industry is complex and getting more so by the day. Customers are holding companies to a higher standard of performance — and now you can do the same with our team of experts. Maner Costerisan has the deep industry knowledge with longstanding relationships across the Great Lakes Region that make all the difference. Our clients work with partner-level experts who do more than advise, they offer personalized, hands-on, data-driven support that addresses immediate needs while keeping an eye on the future. From expanding into new markets to securing a succession plan to reporting requirements to keep up with ever-changing regulations, our team of experts can craft a plan to help you reach your goals and keep you compliant and future-proof.

Telecommunications and financial expertise with a personal touch.

Our trusted advisors have unmatched telecommunications experience in the Great Lakes Region, but our most important expertise is in your business. We get to know your company's needs and goals so we can offer personalized, actionable advice, outline risks and provide hands-on support from accounting to technology – wherever it makes the biggest impact.

Accounting and Outsourced Solutions

Get more flexibility by adding a team of experts in addition or in place of a dedicated staff. Our team can step in to manage everything from day-to-day bookkeeping to developing a long-term growth strategy.

Audit & Assurance

In your business, reliability is everything – and that includes with your financial data. Our team will complete a thorough review of your financial statements and provide a detailed report that confirms your data is 100% accurate.

Tax Planning

The telecommunication industry's unique needs, regulations, and tax credit opportunities demand a more flexible and innovative strategy. That's where our tax experts make all the difference. Our team creates innovative strategies around your business's goals to optimize your position and help you get every possible R&D tax credit.

Succession Planning

You've dedicated your life to building a business that connects communities. We're here to reward that dedication by securing long-term future and value. Our team can develop a strategy for when you're ready to transition or sell by aligning and strengthening your company, improving profitability, reducing risk and maximizing value.

Consulting

Our team of telecommunications experts can bring experience and support when and where you need it. Just a few of the ways we can help: mergers and acquisitions (including the intricacies of dealing with the FCC), strategic planning to find untapped areas for growth, integrating financial technology and developing KPIs to empower more informed decisions.
