

SMALL AND MIDSIZE BUSINESSES

Here to help small and midsize businesses reach their greatest potential.

Small to midsize businesses run on passion, attention to detail and the ability to take on challenges. Whether you're an architect, a coffee shop, technology firm, engineer, or a law firm, Maner Costerisan gets to know your business so we can tailor a strategy around your unique challenges, opportunities, and goals. Our team can help strengthen the financial side of your business, upgrade your technology to help you make more informed decisions, and so much more. We know your company has big plans, so our team is ready to deliver solutions to empower your business to compete with anyone.

Small and midsize businesses. Big resources.

We've been trusted by small and midsize companies to help them succeed and grow for over a century because our team turns pain points into points of growth. Staffing issues, resourcing struggles and even technology challenges — we're here to remove obstacles and eliminate disruptions so you can focus on running your business.

Outsourced Accounting Solutions

Get more flexibility and value from your accounting department by seamlessly filling in staffing gaps with a team of experts. From high-level strategic planning and cash flow projections to weekly bookkeeping, our team plugs right in to deliver the highest quality, cost-effective accounting help on a temporary or permanent basis.

Tax Planning

Taxes are inevitable, but paying too much is avoidable. Count on our tax experts to design innovative strategies and proactively identify tax-saving opportunities to optimize your business's position.

401K & Qualified Retirement Planning

You don't need to be a big business to offer big benefits. We can help design and manage robust retirement plans for your staff that are proven to draw in and retain top talent.

Technology

From system integrations to tech support, our team is here to ensure your technology investment is helping grow your business. We customize cloud-based solutions around your unique needs, budget, and staff, and easily integrate the right tech into your day-to-day processes, giving you a clear picture of your financials and data in real-time, for more informed, more effective decisions.

Succession Planning

With everything you've put into your life's work, the right plan is crucial to ensure you achieve your goals. We'll lock down a plan of action to grow your business's value today while preparing for your future and how your business impacts your personal goals so you can be more confident you'll achieve them.

**We're ready to work for your business.
